STAFIX ELECTRIC FENCE AND SECURITY CENTRES

STAFIX ELECTRIC FENCE AND SECURITY CENTRES

Ndlovu Fencing (Pty) Ltd has a well-equipped steel fabrication factory and a powder-coating plant. These facilities enable us to quickly and economically manufacture our standard, or custom-designed, wall-top brackets. Wall-top brackets can be either hot-dipped galvanised or powder-coated depending on a customer's requirements. Ndlovu Fencing can also custom-manufacture aluminium or stainless steel wall-top brackets. Customised orders require approximately seven working days for completion. All Stafix Electric Fence Centres hold a wide variety of wall-top fencing brackets in stock at all times.

5 & 6 WIRE PVC ROUND BAR

- ★ 10mm PVC coated, electro galvanised round bar
- ★ Available in black or white

5 & 6 WIRE ROUND BAR

- ★ 10mm HD galvanised or powder-coated round bar
- ★ Fitted with 5 or 6 bobbin insulators
- ★ Very economical and easy to fit

5 & 6 WIRE FLAT BAR

- ★ 20mm x 5mm flat bar wall-top brackets
- ★ Available straight or angled, in black or white powder-coated or HD galvanised

6, 8 & 10 WIRE SQUARE TUBE

- ★ 20mm square tube wall-top brackets for the more quality-conscious installer
- ★ Brackets can be fitted with black or white Pop-em, flat-bar, or nail-on insulators
- ★ Can be straight or angled, HD galvanised or powder-coated

5 & 6 WIRE PROFILE BRACKET

- ★ For use on flat topped walls
- ★ Angled profile for added security
- ★ Bracket is fitted with base plate for secure attachment to the wall
- ★ Available in black or white, powder-coated or HD galvanised

5 & 6 WIRE T-BRACKET

- ★ Ideal for an unobtrusive fence on top of a high wall
- ★ Available in black or white powder-coated or HD galvanised

600MM & 750MM STAYS

- ★ 8mm round bar stays are used to stabilize strain and corner round bar wall-top brackets
- ★ The stay can be supplied as is, or with a lug welded onto it
- ★ Available in black or white, powder-coated or HD galvanised

LUG STAY CLAMP

- ★ This lug is fitted to one end of a stay to facilitate attaching the stay to a wall
- ★ The stay clamp is used to attach the top of the stay to a round bar bracket

ISCOR Y-STANDARD

- ★ The strong, conventional, Iscor Y-Standard, can be fitted with Y-Standard or bobbin insulators
- ★ Can be used as intermediate supports for electric security and wildlife fences
- ★ Available in 2.4m and 3m lengths and in black or galvanised

BIG HOLE Y-STANDARD

- ★ This strong, custom manufactured, standard has larger holes punched through it to take the plastic Pop-em insulator
- ★ Wires run through the Y-Standard which makes it difficult to push them apart
- ★ Available in 2.4m and 3m lengths and in black or galvanised

ROLLED PROFILE STANDARD

- ★ This lighter, hot-dipped, galvanised profile pole can be used with Pop-em or Y-Standard insulators
- ★ Supplied in 1mm or 2mm thick rolled steel
- ★ Can be used to reinforce palisade, or as a light, intermediate, freestanding standard
- ★ Available in 0.9m to 3m lengths

SECURITY CORNER POLES & STAYS

- ★ Stafix Electric Fence Centres stock fully galvanised 96mm x 2mm poles in 2.4m and 3m lengths
- ★ The poles are drilled with 2 holes at 90 degrees 10mm apart for S-Hooks
- ★ The posts are used to turn corners

SECURITY INLINE POSTS & STAYS

- ★ Stafix Electric Fence Centres stock fully galvanised 96mm x 2mm poles in 2.4m and 3m lengths
- ★ The poles are drilled with 1 hole at 10mm apart along the post for S-Hooks
- ★ The posts are used for inline straining and at starting points and gates

ELECTRO PALISADE

- ★ As the name implies - this is palisade with a bite
- ★ Custom built, hot-dipped galvanised, or painted palisade
- ★ Specially designed insulators enable one to electrify and monitor the palisade fence

CONVENTIONAL FENCE PRODUCTS

While Stafix Electric Fence and Security Centres do not hold all types of conventional fencing materials in stock, they can, should quantity warrant it, supply and deliver to site at very competitive prices, conventional fencing materials such as field fencing, Bonnox, mesh, barbed wire, standards, etc.
