COMFORT DOOR OPERATORS

The Comfort Range of garage door motors offers a high quality top-of-the-range solution to automating tip-up and sectional garage doors. The Comfort motors are quiet and are electronically controlled to give soft starts and soft stops.

PRO ALPHA GARAGE DOOR MOTORS

The locally-manufactured range of Pro Alpha Garage Door Motors offers an inexpensive and economical solution to automating tip-up, roll-up and sectional garage doors.

REMOTES AND RECEIVERS

Stafix Electric Fence and Security Centres stock a wide range of remotes and receivers to meet the requirements of any existing or new installation.

SMART GUARD

The Centurion stand-alone keypad offers a cost effective key less access control solution.

- ★ Up to 1000 unique 1–10 digit codes
- ★ Fully weatherproof, with back-lit keypad
- ★ 3 channel output

INTERCOM SYSTEMS

Stafix Electric Fence and Security Centres stock a wide range of intercom systems. The Kenwei 1–1 and Kenwei 1–2 intercoms are popular and user-friendly. The systems are available in 220V and 12V configurations. The Kenwei 1–1 is also available in a wireless 12V version.

VIDEO INTERCOM SYSTEMS

Stafix Electric Fence and Security Centres stock an inexpensive range of video intercom systems. The systems are available in 220V, in black and white or colour.

WIRELESS VIDEO & AUDIO INTERCOM SYSTEMS

Stafix Electric Fence and Security Centres stock an upmarket range of wireless Kenwei audio and colour video intercom systems. The system can be supplied with a standard colour video door phone or the fully portable wireless surveillance monitor. The Wireless Video Intercom Range is estimated at a maximum of 65m.

GOOSENECK

Stafix Electric Fence and Security Centres stock a range of powder-coated, hot-dipped galvanised or stainless steel goosenecks. The top-of-the-range Galahad polished stainless steel gooseneck is supplied with an anti-theft bracket.

PROXIMITY CONTROLLERS AND TAGS

A full range of proximity controllers, door tags and access cards are available on order. These systems cater from simple, single-door, stand-alone operators right through to computer-interfaced systems.
